THE CALIFORNIA AND OREGON ROAD GRANT.

There was superior opportunity during the session of the Anti-Chinese Convention in this city to ascertain the personal views of representative men of the State concerning the suicidal policy proposed by political factions to drive through Congress a measure forfeiting the land grant to the California and Oregon Railroad Company.

Over against the universal demand of the people that the land grant be not forfeited, stands only the shylock of political ambition, demanding "My bond, my bond," and thirsting for the technical pound of flesh. Governmental wisdom, it gan, R. T. Carroll, Miss Rose Wood, Miss C. Alsberg, Lewis Morrison, E. J. Holden, the question, certainly will put the seal of its condemnation on the proposed forfeiture. It has been already shown what is termed laches in availing of the grant within the period allotted for construction of the road, was only technical, and that in fact it would have been the hight of financial folly to have undertaken the completion of the line, until assurance of F. D. Cobb, Stockton; George Morris, Oakthrough connection could be given.

The grant proposed to be forfeited gives what value there is to adjacent lands, and therefore determines the period in which the mountainous region on the northern State line shall be opened up to settlement As a mere investment the Government could not do better for the public lands

THE ANTI-CHINESE CONVENTION. Expressions of the Metropolitan Press Concerning Its Work.

[S. F. Bulletin.] The Convention which had been in ses on at Sacramento for three days is enitled to be regarded as one of the most renarkable that ever assembled in the State. It came together in two parts-that is to ay, an adjourned session of a Convention held some time since at San Jose, and a tor new Convention, appointed on the sug-gestion of a Sacramento committee, by the several Boards of Supervisors. In amalmating these Conventions there was a chance for much dissension. But all ob-stacles to a harmonious blending were inally overcome, and the two bodies became one before any real business was transacted. The general unanimity which followed was perhaps the most remarkable feature. Upon one proposition there was no division of sentiment whatever, namely, that no more Chinese should be allowed to proposed boycott subsequently assumed was in the nature of a compromise gether like two prairie buffaloes. Sergeant Barwick's Report.

The northwest wind yesterday reached a maximum velocity, during the early morn- his ing, of 28 miles per hour; during the fore- the lower grades of collars were made in noon of 37 miles per hour, and during the afternoon of 32 miles per hour. In all probability, if this wind had not followed the rapidly-falling barometer of a day or so ago, there would have been rain, and, between a north wind and rain, the former is more desirable at present than the latter. Owing to so much overflow, the northerly wind has not had the drying effect it otherwise would have had. It causes a much more rapid evaporation of water from overflowed surfaces, thereby making the wind more moist than usual, although its capacity for containing or absorbing moisture is yet very great. The wind at 4 A. M. yesterday averaged from 8 to 28 miles per our from Olympia to San Diego; at noon it averaged from 8 to 37 miles per hour, and at 7 o'clock last night from 8 to 42 miles. The weather was clear, with northwesterly winds in California. The baromo'clock last night was falling rapidly in Washington Territory and Oregon, with southerly winds and weather cloudy to light rain. The barometer is falling in northern and central California, and rising in the southern portion of the State, with northerly winds and clear wea-

Taken to the Asylum Deputy Sheriff Kennedy, of Placer county, passed through yesterday, conveying to the asylum at Stockton an insane man named John Litcher. The latter was an emigrant passenger for the East on the 11th instant, but left the train at Blue Canyon, and endeavored to commit suicide. Yesterday, while waiting in the depot sitting-room in this city for the Stockton he became greatly alarmed when a traveler walked into the room with a rifle nclosed in a canvas cover, in his hand, and told Deputy Sheriff Lee that he knew the man intended to kill him. Lee, humoring him, agreed to go and "attend" to the owner of the gun, and following that gentleman out, informed him of the circumstances and requested him to stay outside, to which he readily agreed. Returning to Litcher, Lee told him that the gun's owner had been disposed of, and would never trouble him again. The delight of the lunatic was unbounded. Grasping Lee by the hand he ejaculated, "Is that really so? Oh! how can I thank you? Mr. Lee, you're my friend forever!"

Metropolitan Theater.

At the Metropolitan this evening the very successful farcical comedy entitled "Widow O'Brien, or Fun on the Sound," will be presented, and will occupy the boards for three nights and a matinee on Wednesday. The "Widow" held receptions in San Francisco for four weeks recently, and the theater was filled with her admirers every night, "standing room only" being fre-quently announced. She has a good company of comedians and specialists to assist her, and the entertainment is full of fun and music from the rising of the curtain to the close of the performance. Popular prices will be charged during the engagement-75 and 50 cents, without extra reserved seats, which can be cured at Houghton's.

If that is the case, I think it would be an injustice to those who have already in good faith discharged their Chinese, especially the keepers of hotels and restau-rants, which every one has done at a sacrifice. Now what does the 10th of November mean? It means that all the fruit will be picked, all the fruit canned, all the hops baled and all the grain sacked, which will mostly be done by Chinese. If that is the last week stole over 100 chickens from the last week stole over 100 chickens from the case, there will be nothing to do for those hennery of Henry Newcomb, near Galt. who have been anxiously waiting to get a job. The argument that we have no skilled labor to pick our fruit crop may be true, but how are we going to ascertain who are those who wish to learn if it is put off for another year? It will also have a tendency to stop immigration for another year, for what is the use of immigrants coming here if they cannot get work? I would suggest the 1st day of April as the proper time for boycotting to commence, and not wait until after the next State FAIR PLAY.

But Hamlet's blow was so delivered as to make him appear as heaven's appointed avenger, while Macbeth represented the fiendish spirit of hell. Pursuing this thought, and analyzing the thought and lessons of the tragedies, he applied the lesson of Hamlet to the effort of the upright to reform and advance man, to resist chicane, political intrigue and the usurpation of human rights. The thought of the tion of human rights. The thought of the tragedy of "Macbeth" he applied to the ambition of the unprincipled of this day, Francisco, and that he would have to abandon the business or suffer a severe loss, if compelled to stop before those in San Francisco did, but that he had discharged a portion of his Chinese help and the remainder would follow very soon, as he was determined to give the change a fair trial.

Who murder right, trample under foot the weak, and seek the accomplishment of vicious ends by the power of might. Something which Women Who Study to Please will Please Read-The Wonderful Fertility of Ideas in Spring Dress Stuffs-The "Mikado". Cloths-A New Evening Fabric that's Bound to be Popular.

PON several accounts the present season promises to be of unsual interest in the dress goods line. After the elaborate silk and wool creations of last Fall it has seemed as though originality and extravagance could go no further. "What can they do for Spring?" has been the question which interested thousands

have asked, with a feeling akin to sympathy for those who, after such a season of wonderful fertility in ideas, must still create new things.

But the suspense is over. The Spring months have come. The new dress fabrics are here. And they're entirely different from those of last season, and ten to one will be better liked!

Describe them? Impossible! We can only hint, in a vague way, at a few leading features. Some of the new stuffs are plain-very plain, indeed, while others are elaborateness itself. Between these extremes range countless conceits for all tastes and fancies. But the styles are all newall things no one has dreamed of before.

As a sort of substitute for the Boucle Cloths of last year, we have a class of fabrics, the patterns of which are wrought out in small raised tufts of wool, not unlike the loops in a Brussels carpet. Some are in brocaded designs, others in stripes; some plain colors, others in variegated effects.

Another family of dress stuffs has a smooth surface with designs in tapestry effects. The "Mikado" suitings are an excellent example of these. The pattern consists of two inch stripes in jumbled figures of dull gold, red and blue. The groundwork, of course, is plain-green, brown, fawn, etc., as one may fancy. Price, per pattern, \$14 50.

The "Dentelles" are also among the desirable new things. They're simply fine woolen fabrics in lace effects - the openwork sometimes being confined to a narrow stripe, or at other times pervading the whole fabric. Many will fancy a certain line of French suit-

ings, the latterns in which are, as it were, mere lines of crinkled zephyrs laid upon the surface. The effect is airy and summer like. A new weave for evening wear is here in light

tints and black. It has a corded finish something like a Jersey cloth, but is as light and fine as a nun's veiling, and quite as effective for draping.

We have said very little about prices, but our prices are low, and many of the best things cost but moderately.

HEALTH

Is not possible when the blood is impure, and recovery from any ailment must be slow and uncertain while that condition continues. The Blood may be corrupted by the taint of Hereditary Scrofula, and the poisons of Mercurial and Contagious Diseases, and also by impurities implanted in it through excesses in living, improper food, derangement of the digestive and assimilatory organs, and other causes. The first external evidences of such vitiation are Blackheads, Pimples, Sties, Eruptions, and Boils. Yet more serious are the symptoms showing its internal effects in depression of the Spirits, Lassitude, Weariness without effort, Headaches, Dizziness, and enfeebled circulation. Be warned in time!

Ayer's Sarsaparilla Is the only medicine that will thoroughly purify the blood. In millions of cases, during nearly forty years in which it has been the best hope of humanity suffering from vitiation of the life-current, it has effected cures beyond the power of any other remedy. Leading physicians know its composition from the most powerful altera-tives, diuretics, and tonics, and prescribe it in their practice. PREPARED BY

Ladies

Do you want a pure, blooming Complexion? If so, a few applications of Hagan's MAGNOLIA BALM will gratify you to your heart's con-tent. It does away with Sallowness, Redness, Pimples, Blotches, and all diseases and imperfections of the skin. It overcomes the flushed appearance of heat, fatigue and excitement. It makes a lady of THIRTY appear but TWEN-TY; and so natural, gradual, and perfect are its effects, that it is impossible to detect its application.
